

alta™ mattress

alta™ mattress

because real life hates fabrics.

Alta™ is a revolutionary textile technology developed and engineered to address the conditions we live in. Permanent and customized for specific applications and environments, Alta™ dispenses with traditional methods of textile protection, which don't account for the fact that drapery and mattresses face completely different challenges. Unmeasured and poorly engineered, these old-school methods charge buyers for unnecessary, under-performing fabric treatments that offer temporary protection.

Alta™ Mattress delivers a new level of performance and cleanability so owners can sleep tight.

features & benefits

✔ FR Code Compliance:	16 C.F.R 1632.6
✔ Repellency (High):	AATCC 22 and 118
✔ Cleanability (High):	ASTM D1308/ CFFA 141 Method II
✔ Pilling (Medium):	ASTM D4970
✔ Abrasion (Low):	ASTM D4966
✔ Seam Strength (Low):	ASTM D4034
✔ Antimicrobial (High):	ISO 20743
✔ Air Permeability (High):	ASTM D737

Alta™ Mattress is specifically tested and measured to enhance the performance of mattress applications while maintaining breathability and comfort.

applied: textiles

Applied Textiles has spent over two decades making fabric better, with innovative technologies developed and backed by independent certified testing. Alta™ is the first and only application-based technology in the market and won an award for innovation at Boutique Design New York 2015. Whatever the technology, Applied ensures that the end result is fabrics that are soft, breathable, easy to maintain and enduring.
